

# Symptoms of pancreatic cancer

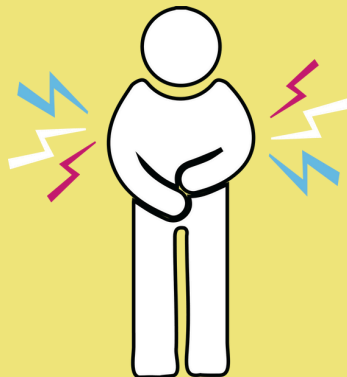

**Nausea**

**Jaundice:**  
Yellow skin or eyes

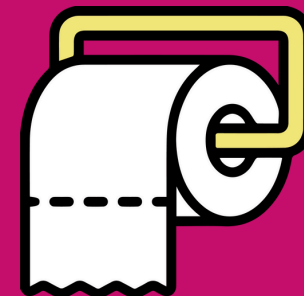

**Abdominal  
or back pain**

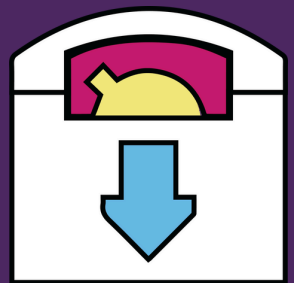

**Diabetes:**  
New or hard to  
manage

**Fatty stools**

**Unexplained  
weight loss**

*If you have any of these symptoms and you don't know why, go to your GP. If you have jaundice, seek urgent medical advice. Remember that these symptoms could have more common causes.*
