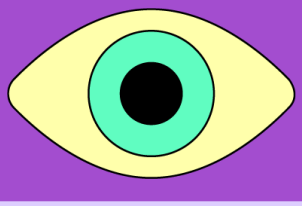
Know the signs of pancreatic cancer

Jaundice
yellow skin or eyes



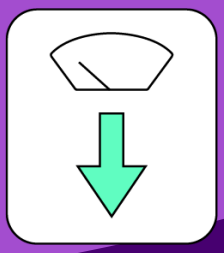
seek urgent medical advice

Nausea or loss of appetite

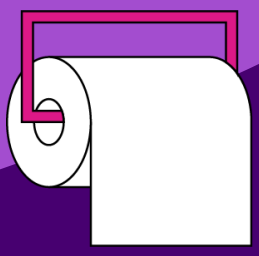
Abdominal or back pain

Diabetes
New or hard to manage

Unexplained weight loss



Fatty stools
pale, oily, hard to flush



Pancreatic cancer symptoms can be vague and easy to miss.

If you notice any of these symptoms and they are new, unexplained or ongoing, talk to your GP.

These symptoms can be caused by common, less serious conditions.
